

Rule for encouragement of academic activity

Purpose of the present Regulation is to assure incentives of affiliated academic staff's scientific activities of the Teaching University (hereinafter - "University"), to promote their professional development and encourage the improvement of general level of research at the University.

The Regulation also establishes the rules for remuneration for articles published in the University's journal by administrative, academic and invited personnel of the University.

The incentives sum shall be issued for scientific work (article / conference material, book / book chapter), patent and editorial work implemented by using the University's name so as to identify an academic connection of the person conducting the activity with the University.
